

Q: What is a flush design album?

A: In this type of album, the photos are printed right onto the page. The flush design can be in either magazine or gallery style.

Q: What is a magazine style album?

A: This style flush album is more like a collage. Pictures fill the entire page. Images are used as faded backgrounds, overlapping, etc.

Q: What is a gallery style album?

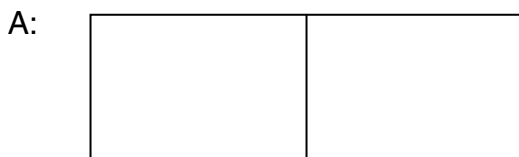

A: This style album uses more white space, emphasizing each picture more.

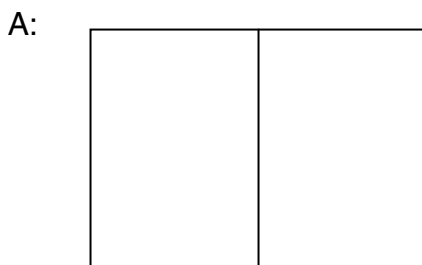

Q: What is a matted album?

A: In this type of album each page has mats cut out with the photo behind it, a more traditional type of album.

Q: What does a 11x14 horizontal album look like?

Q: What does a 11x14 vertical album look like?

Q: Do I pick vertical or horizontal for a 10x10?

A: No

Q: Do I need to pick my cover picture, leather color, and engraving now?

A: No, you can decide that when you sit down with your designer at your album review.

Q: Can I use the numbers on the website to fill out my album or thank you card forms?

A: No, the numbers on the photo reflect website do not match our numbers. We need the jpeg number off the back of your proof for your forms.

Q: About how long will it take for you to design my album?

A: Depending on what time of the year it is, it may take up to 8 weeks to design.

Q: After I approve my album design, how long will it take until my album is ready to be picked up?

A: Again, depending on the time of year, it may take anywhere from 2-4 months.

Q: Can my photos be retouched?

A: Yes, please specify when light retouching is needed, such as, blemishes, dark under eye, etc. This will be done at no additional charge. Extensive retouching must be assessed by our graphic designers to determine feasibility and pricing.

Q: What is selective coloring?

A: Selective coloring is when you take a COLOR image and keep one part of the image, such as the flowers in color, and make the rest black and white. If you want this done to images in your bridal album, please make a note of that so the designers are aware.

Q: Can I add more photos to my album?

A: Yes, additional photos cost \$20 per image extra. However, there are limits to how many can fit in an album. If you go over 100 images for an 11x14 album, you must upgrade to a two volume set, which is \$1000, plus the additional images. For a 10x10 album, you cannot go over 80 images without upgrading to a two volume set.
